### I. INTRODUCTION

The purpose of this Sign Program criteria is to establish sign design standards and general guidelines that assure consistency in quality and necessary to balance maximum identification within an overall harmony of design for the Aliso Village shopping center. Conformance to these criteria will be strictly enforced. Any installed non-conforming or unapproved signs shall be brought into conformance at the expense of the Tenant and/or his Sign Contractor. All signs installed or displayed on the premises of Aliso Village must have written approval of the Landlord/Developer. The aesthetic characteristics of the signs (i.e., placement, size, proportion, colors, textures, method of fabrication, location of transformers and electrical devices, etc.) are subject to the discretionary approval of the Landlord/Developer within the context of this criteria.

### II. SIGN SUBMITTAL PROCEDURE

Colored Storefront Elevation Plan: Exhibit drawn to scale identifying: (a) the sign placement and lease space width on the storefront, (b) sign copy lettering and graphics with design details (e.g., materials, colors, etc.), (c) dimensions square footage, (d) method of illumination, and (e) construction specifications, including attachment devices, openings for

conduit sleeves and supports in sign panels and building walls.

2. Section Profile Plan: Section cut through the sign showing the dimensional thickness of the letters, wiring and attachment details.
3. Site Plan: Plan illustrating the location of the lease space on the site, including width of tenant space.

**Note:** All sign layouts shall include a digital image of the building frontage with proposed sign in a scaled format to include adjacent tenant signage.
