

City of Laguna Niguel

Districting 101  
September 5, 2023

# Agenda

Things we will cover:

- The California Voting Rights Act (CVRA)
- What is Districting/Redistricting
- What is the Voting Rights Act
- What is Gerrymandering
- Required Districting/Redistricting Criteria
- The Mechanics of Districting
- Laguna Niguel Census Data
- Public Hearing Schedule

# What is the CVRA?

The California Voting Rights Act is a state law that prohibits the use of At Large Election Systems in local government if there is Racially Polarized Voting.

“At Large” is defined as anything other than a system in which an elected official lives in a district, and is only elected by members of that district. Does not include “multi-member” districts.

“Racially Polarized Voting” is defined as differences in voting patterns which can be shown to be correlated to race, religion, national origin, or membership in any other protected class.

# What is the CVRA?

The California Voting Rights Act takes the principles of the Federal Voting Rights Act and expands it regarding districted elections in two key ways:

While Federal law uses “majority minority” districts as a standard for vulnerability, the CVRA only requires “ability to influence.”

The CVRA requires that plaintiffs get full reimbursement for legal fees associated with any successful challenge.

# What is the CVRA?

The California Voting Rights Act takes the principles of the Federal Voting Rights Act and expands it regarding districted elections in two key ways:

While Federal law uses “majority minority” districts as a standard for vulnerability, the CVRA only requires “ability to influence.”

The CVRA requires that plaintiffs get full reimbursement for legal fees associated with any successful challenge. ***These can be lessened or eliminated if the district follows a strict and prompt process for districting.***

# What is Districting

## Definition

Districting is the initial process of creating election district boundaries.

These boundaries determine:

- Eligibility to run for office – must live within boundaries to qualify for election.
- Who votes in the election – only voters within the zone vote for their board member.

# What is Districting

## Definition

Districting is the initial process of creating election district boundaries.

These boundaries do not determine:

- How the district decides to govern. The district can still work to achieve goals that benefit the district as a whole rather than the interests of any single zone.
- How services or relationships between the district and the public are managed.

# What is Redistricting?

Redistricting is at its core the act of equalizing population among districts. After a city districts, this occurs every ten years following the release of the decennial US Census datasets.

This is important in order to meet two requirements - one constitutional, one from Supreme Court precedent:

- *Equal Representation (14<sup>th</sup> Amendment)* - how effective any resident can be at advocating for themselves or being represented within a jurisdiction.
- *One Person One Vote* - equal ability to elect a candidate of choice.<sup>9</sup>

# What is the Voting Rights Act?

The Voting Rights Act is federal law that seeks to remedy racial disenfranchisement. It has two sections impacting redistricting:

**Section 2** – Majority Minority Districts

**Section 5** – Preclearance (inactive)

The California Voting Rights Act prohibits the use of At Large Election Systems in local government if there is Racially Polarized Voting.

# What is the Voting Rights Act?

The Voting Rights Act Section 2 is enforced when a jurisdiction meets certain preconditions:

- 1) A minority group must be sufficiently large and geographically compact to comprise a majority of the district;
- 2) The minority group must be politically cohesive (it must demonstrate a pattern of voting for the same candidates, also known as “bloc voting”); and,
- 3) A majority of voters vote sufficiently as a bloc usually to defeat the minority group’s preferred candidate.

# What is the Voting Rights Act?

Determining Section 2 obligation requires legal counsel and sometimes a racially polarized voting analysis.

- Does the minority population qualify under Section 2?
- Is the proposed district a sufficient remedy – is it an “effective” majority minority district?
- Is there a claim for a coalition district?
- *Without Section 2, a community of interest can still be supported but race cannot be a predominant factor in drawing lines.*

# What is Gerrymandering

## The Gerrymander

The term Gerrymander came from a cartoon depicting a rather serpentine looking district created by Governor Elbridge Gerry in Massachusetts.

# What is Gerrymandering

## The Gerrymander

There are more recent examples of gerrymandering, even in California.

This 2001 Senate District is a great example.

# What is Gerrymandering

How does gerrymandering work?

# What is Gerrymandering

How does gerrymandering work?

# What is Gerrymandering

How does gerrymandering work?

# What is Gerrymandering

## Types of Gerrymanders

The two primary types of gerrymanders are Partisan and Racial, but there are more.

**Partisan Gerrymandering** – current Supreme Court has determined these *non-justiciable* but some state and local laws have stepped in to ban them.

**Racial Gerrymandering** – courts have repeatedly found these to be unlawful.

**Incumbent Gerrymandering** – common in any redistricting conducted by the agency itself.

# Required Redistricting Criteria

Traditional redistricting principles used throughout the country and written into state law

There are a number of criteria that are required under the FAIR MAPS Act (ranked):

- **Relatively equal size - people, not citizens**
- Contiguous – districts should not hop/jump
- Maintain “*communities of interest*”
- Easily identifiable and understandable lines, following natural and man-made boundaries
- Keep districts compact – appearance/function

# Equal Population

## Utilizing the US Census Decennial File

What is “equal” population has been a key subject in districting litigation.

- Population Equality is based on “People” not citizens or voters or other metrics.
- 10% deviation presumed equal. Other agencies / states have different plan deviation requirements.

# Required Redistricting Criteria

Traditional redistricting principles used throughout the country and written into state law

There are a number of criteria that are required under the FAIR MAPS Act (ranked):

- Relatively equal size - people, not citizens
- **Contiguous – districts should not hop/jump**
- Maintain “*communities of interest*”
- Easily identifiable and understandable lines, following natural and man-made boundaries
- Keep districts compact – appearance/function

# Contiguity

Two definitions for what is contiguous

Contiguity should be thought of as “literal” and “functional.”

- An area that is one whole piece is “literally contiguous.”
- An area that represents how the population functions or how people are connected is “functionally contiguous.”

## Determining what is “contiguous”

## Determining what is “contiguous”

# Contiguity

Determining what is “contiguity”

Railroad tracks act as a barrier, physically separating the city with only three thoroughfares between District 5 and the rest of the city.

# Required Redistricting Criteria

Traditional redistricting principles used throughout the country and written into state law

There are a number of criteria that are required under the FAIR MAPS Act (ranked):

- Relatively equal size - people, not citizens
- Contiguous – districts should not hop/jump
- **Maintain “*communities of interest*”**
- Easily identifiable and understandable lines, following natural and man-made boundaries
- Keep districts compact – appearance/function

# Communities of Interest

Bringing like people together for representation

Communities of interest are the building blocks of election-districts. A community of interest includes ethnic and language minorities and other groups.

- Subjective
- Open-ended to be as inclusive as possible

Examples of Voting Rights Act Communities

- Latinos
- Asians
- African Americans

# Communities of Interest

Bringing like people together for representation

Communities of interest are the building blocks of election-districts. A community of interest includes ethnic and language minorities and other groups.

- Subjective
- Open-ended to be as inclusive as possible

Examples of Voting Rights Act Communities

- Latinos
- Asians
- African Americans

**While communities of interest may include race, it cannot be the *predominant factor* in drawing district boundaries.**

# Required Redistricting Criteria

Traditional redistricting principles used throughout the country and written into state law

There are a number of criteria that are required under the FAIR MAPS Act (ranked):

- Relatively equal size - people, not citizens
- Contiguous – districts should not hop/jump
- Maintain “*communities of interest*”
- **Easily identifiable and understandable lines, following natural and man-made boundaries**
- Keep districts compact – appearance/function

# Required Redistricting Criteria

Traditional redistricting principles used throughout the country and written into state law

There are a number of criteria that are required under the FAIR MAPS Act (ranked):

- Relatively equal size - people, not citizens
- Contiguous – districts should not hop/jump
- Maintain “*communities of interest*”
- Easily identifiable and understandable lines, following natural and man-made boundaries
- **Keep districts compact – appearance/function**

# Compactness

## Determining what is “compact”

The measure of compactness can get complicated.

- Ratio of the circumference of a district and the area of a district.
- Measuring the number of distinct straight lines and the number of kinks and bends.
- Simply outlawing funny shapes.

# Compactness

Determining what is “compact”

# Compactness

Determining what is “compact”

# Additional Redistricting Rules

Criteria required in the City of Laguna Niguel Beyond Traditional Principles

The FAIR MAPS Act adds more criteria to the process.

- Not consider Incumbents / Candidates.
- Not draw districts to advantage or disadvantage a political party.
- Hold minimum set of hearings, encourage public engagement.
- Posting of all redistricting commission information on a website that is maintained *for the next 10 years*.

# The mechanics of Redistricting

## Census Data

Census Files come in two parts:

**Geography** – the underlying framework of the data

**Data** – the counts of population and demographics

And they can convey different information:

**Point in Time** – Decennial Census

**Multi-year Averages** – Trends/Estimates

# The mechanics of Redistricting

## Census Data

The Geography is called the  
TIGER Files

- *Topologically Integrated Geographic  
Encoding and Referencing*

- *Nested geographic units*

- *Block*
- *Block Group*
- *Tract*

# The mechanics of Redistricting

## Census Data

Census Blocks

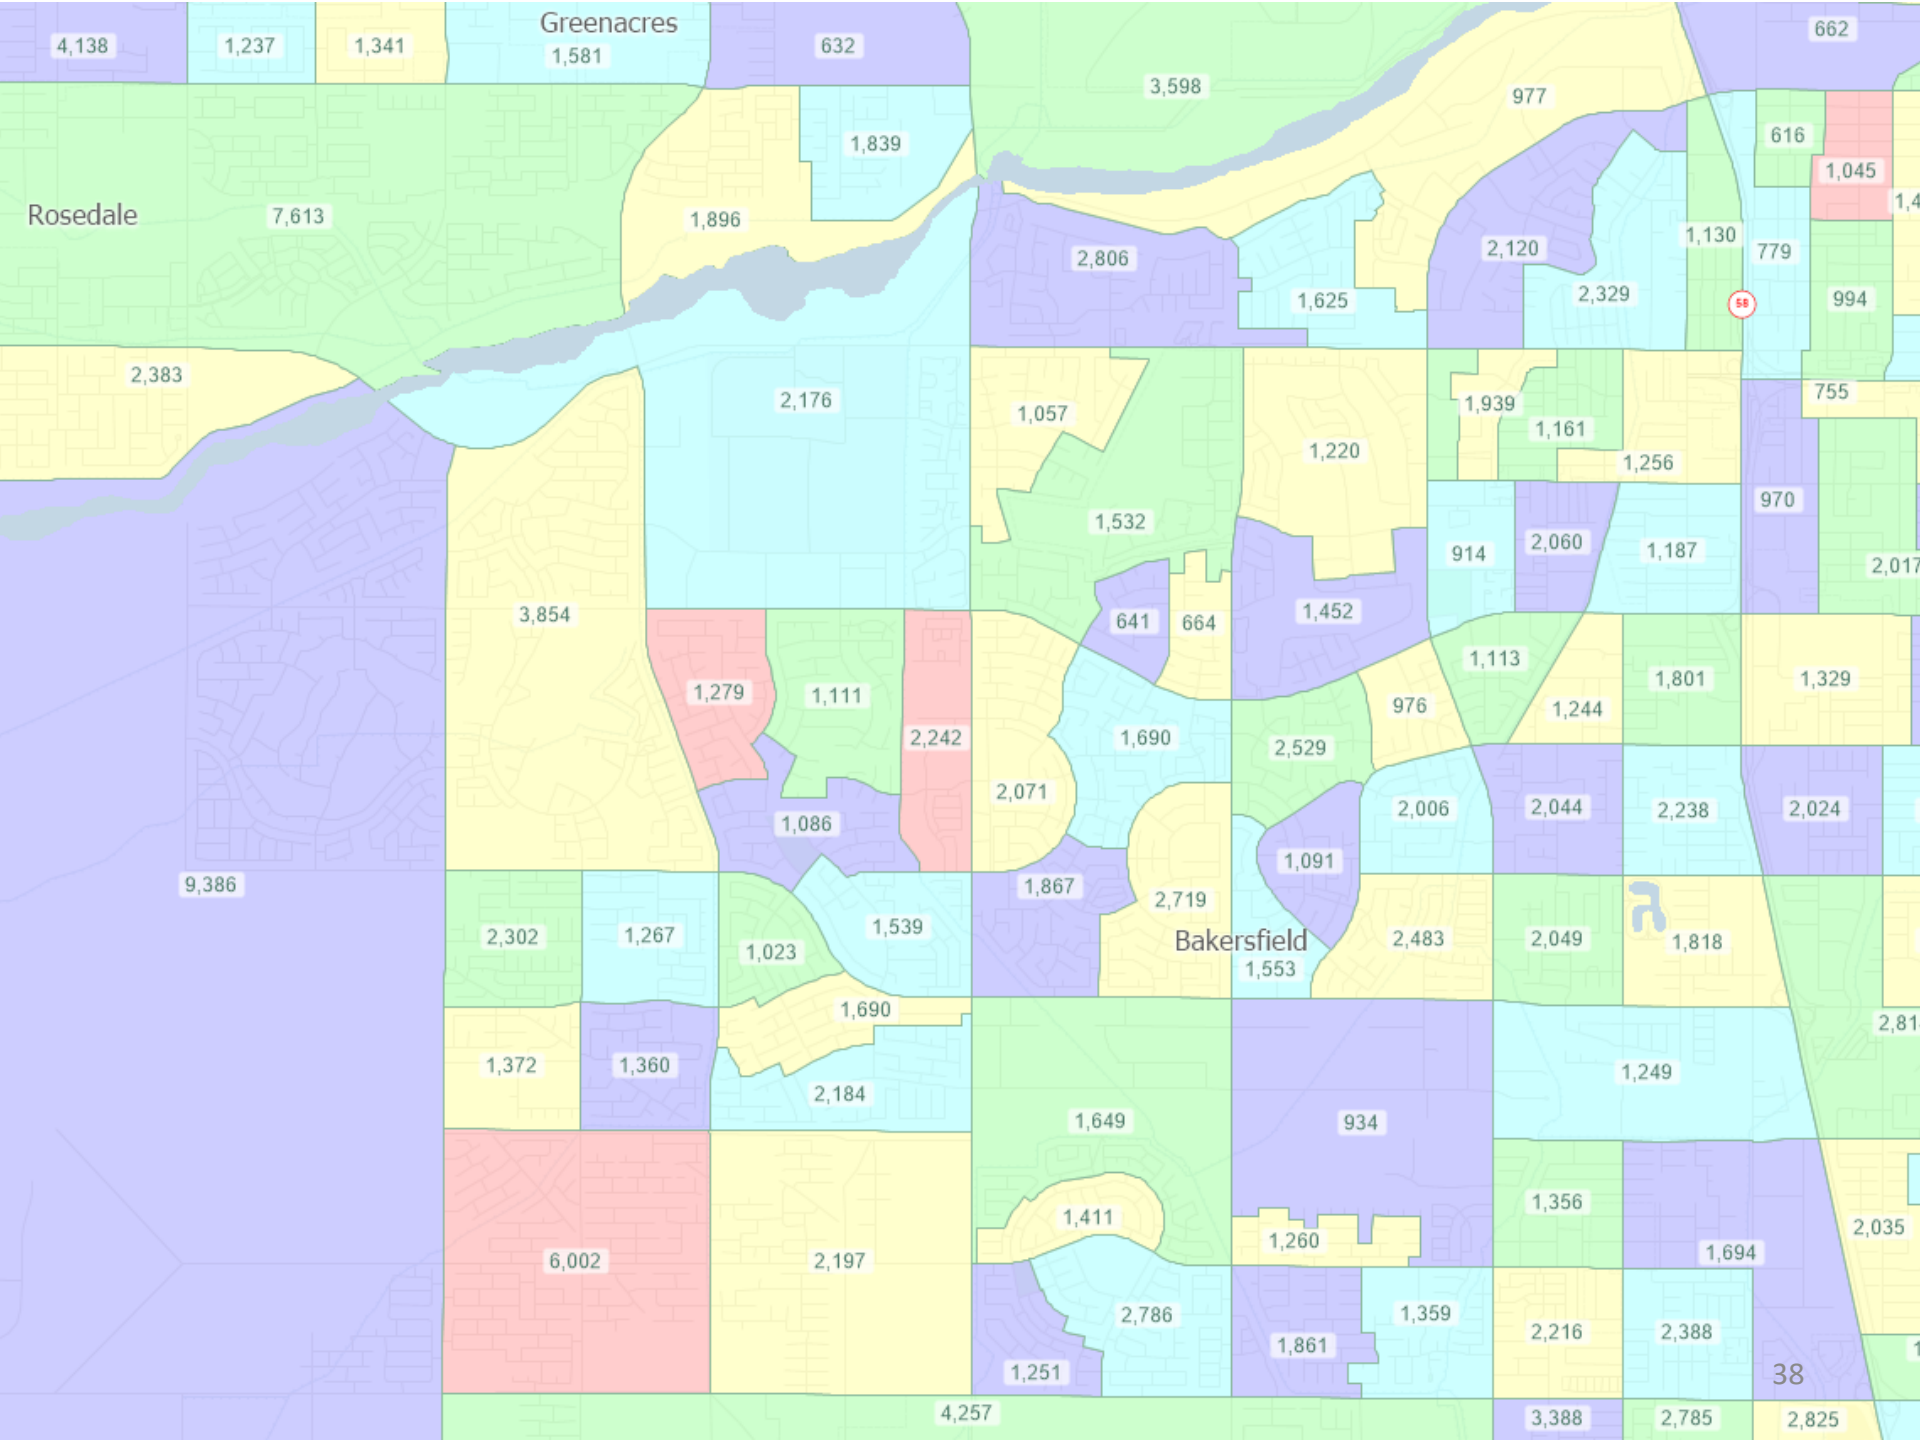

Census Block Groups

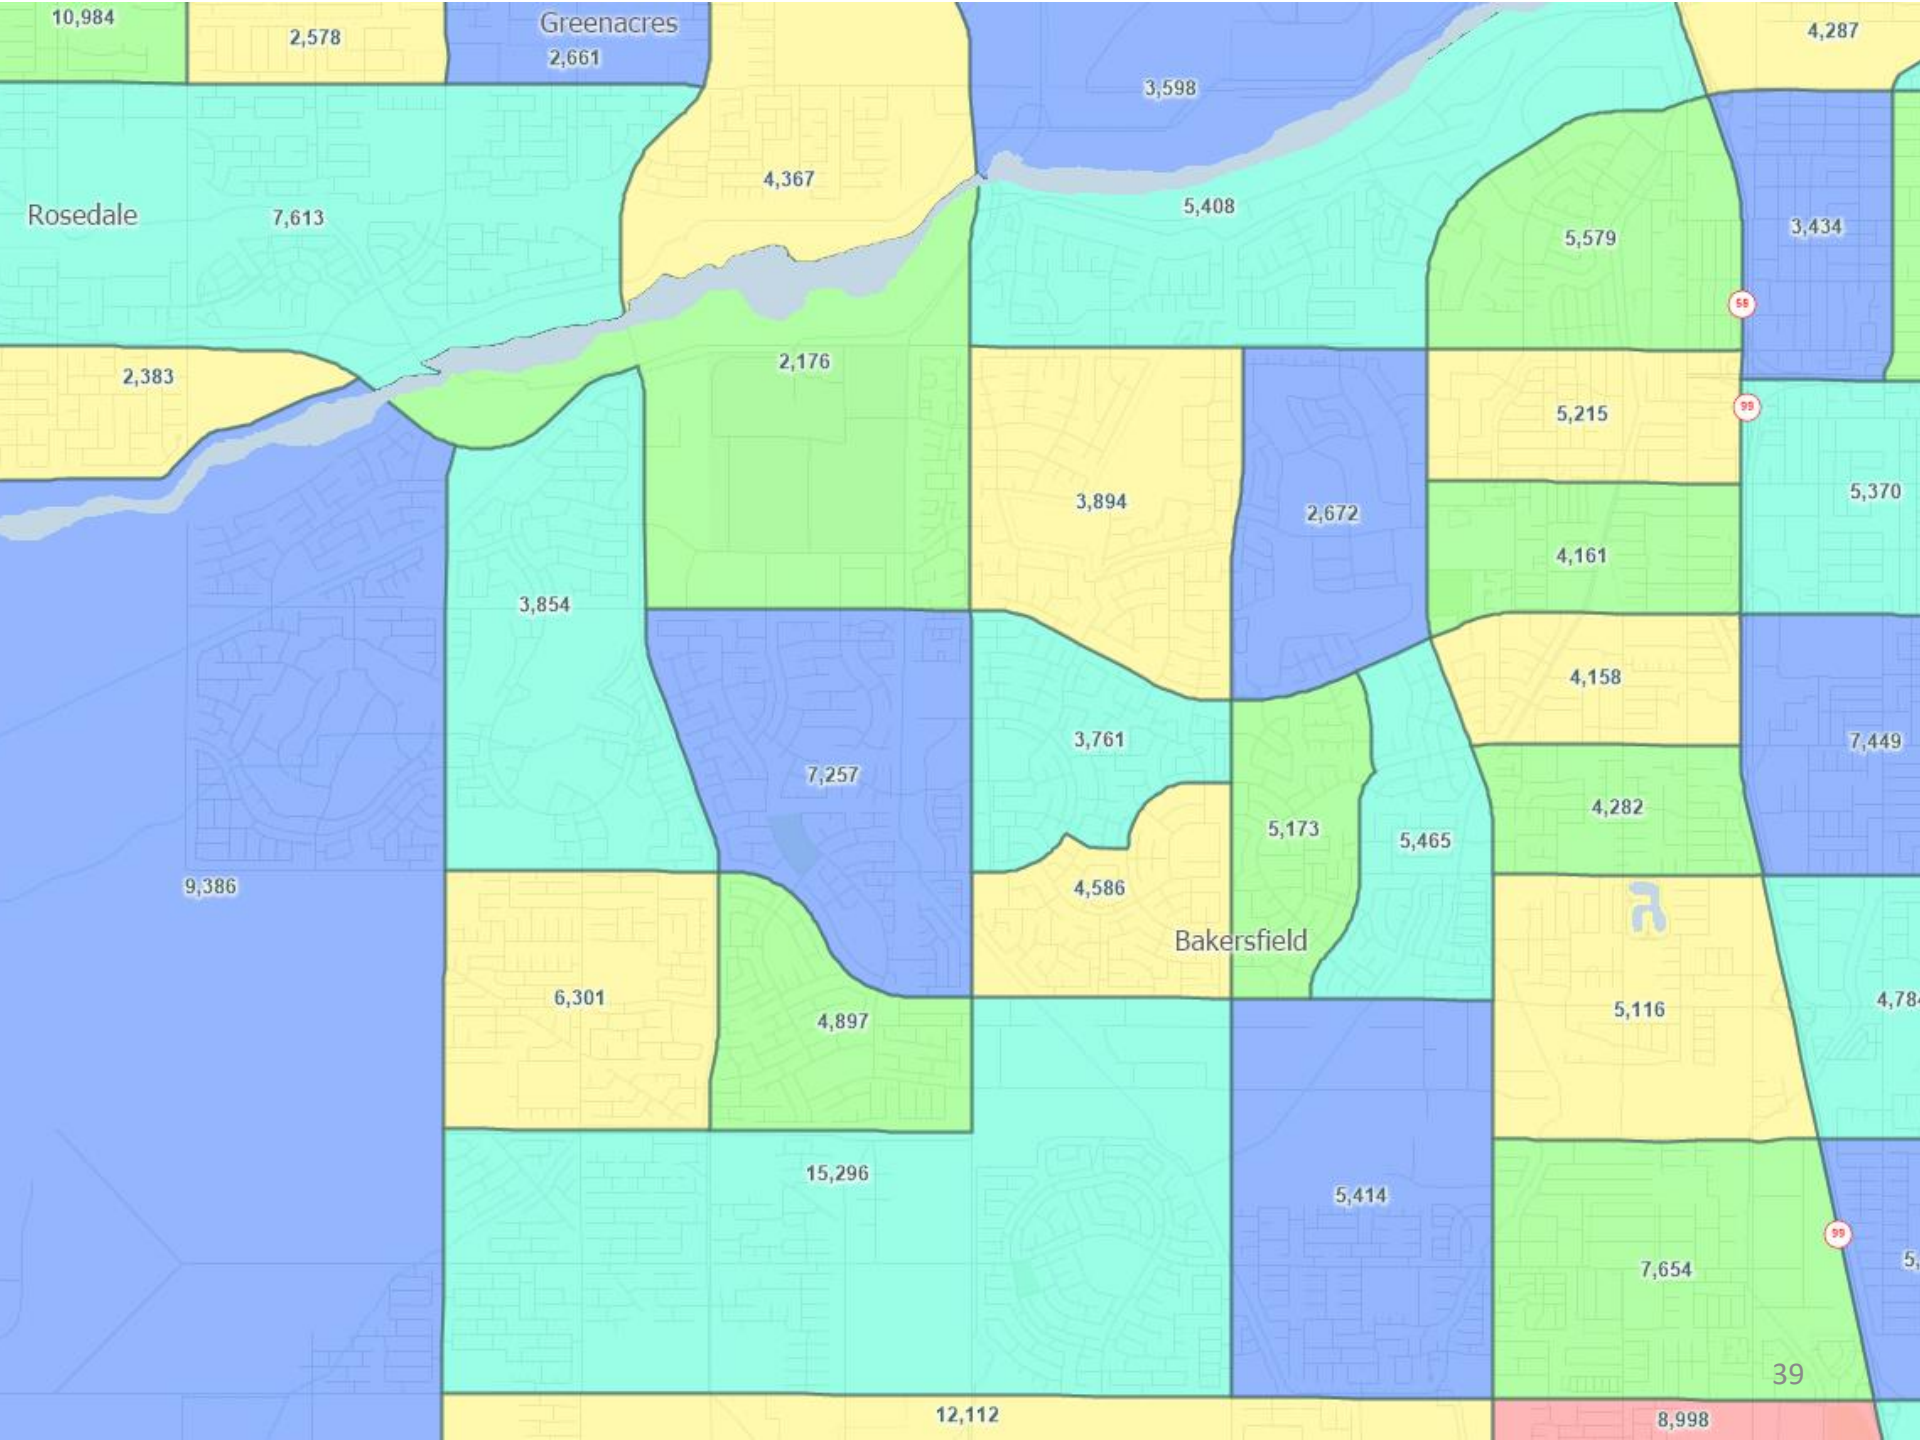

Census Tracts

# The mechanics of Redistricting

## Census Data

Two different datasets most commonly used in redistricting:

- PL 94-171 - the Decennial Census File
  - Census Block Geography
  - Total Population Counts for April 1, 2020, used to determine the size of each district
    - Even though we are now in 2023, we are still required to use this dataset to balance the districts.

# The mechanics of Redistricting

## Census Data

The census data file the city is required to use will be slightly different:

- Statewide Prisoner Reallocation
  - California Statewide Database | UC Berkeley – adjusted population removing state prison population and reallocating them based on where they lived prior to being incarcerated.
  - This allows a more equitable redistricting.

# The mechanics of Redistricting

## Census Data

Two different datasets most commonly used in redistricting:

- American Community Survey (ACS)
  - Census Block Group and Census Tract or larger geographies
  - Results in estimated data that provides more context to the Census results with demographic and socioeconomic info.
  - Provides Citizen Voting Age Population (CVAP)

## 2020 Census

	At Large
Population	64,417
Deviation	0
Deviation %	0.0%
Other	46,794
Other %	72.6%
Latino	10,537
Latino %	16.4%
Asian	6,309
Asian %	9.8%
Black	777
Black %	1.2%

## Citizen Voting Age Population (CVAP)

	1
Total CVAP	48,210
Other CVAP	36,672
Other CVAP %	76.1%
Latino CVAP	5,595
Latino CVAP %	11.6%
Asian CVAP	5,052
Asian CVAP %	10.5%
Black CVAP	891
Black CVAP %	1.8%

# City of Laguna Niguel

## Districting Timeline

### Proposed Schedule:

**September 5, 2023**

**Public Hearing #1 (Pre-map)**

September 19, 2023

Public Hearing #2 (Pre-map)

November 7, 2023

Public Hearing #3: Introduce Draft Maps

December 5, 2023

Public Hearing #4: Revised Draft Maps

January 2024

Public Hearing #5: Final Vote
